

REPRINTS — ASME JOURNAL PAPERS

Please use this form to order reprints of ASME journal papers. The form is automatically included with the invoice for page charges sent to the lead author of each journal paper. It is also available separately upon request.

Reprints of ASME journal papers may be ordered as follows:

If the Voluntary Page Charges are paid —

- The lead author will automatically receive 100 free black and white reprints.
- If prepayment is received before the journal issue is published and the article has been printed in color, color offprints will be provided. These will be printed on glossy paper with a self-cover.
- Additional copies, in lots of 100, may be ordered at a discounted rate. If full color is requested, please contact Marisol Andino for additional charges associated with printing in four-color.

If the Voluntary Page Charges are not paid —

- Reprints, in lots of 100, may be ordered at the non-discounted rate.

NOTE: Publication in an ASME Journal is not contingent upon the payment of the Voluntary Page Charges.

• • • • •

Prepayment is required for reprints ordered at either the discounted or non-discounted rate (both are shown on the reverse side of this page). If prepayment is not forwarded to ASME with the page charges invoice, ASME will send a separate invoice for the order to the address indicated below. Reprints will be provided after the paper has been published in a journal and prepayment has been received.

If prepayment is received before the journal issue is published, offprints will be provided. These will be printed on glossy paper with a self-cover.
